

LOOKS LIKE  
SETTLEMENTPennsylvania R. R. Employees  
Ordered Back to Duty

## TOLD TO REPORT MONDAY

This Leads to Belief That Operators Intend Coming to Satisfactory Agreement With Mitchell Next Week.

Shamokin, Pa., April 7.—The Pennsylvania railroad employees who were suspended last week owing to the coal suspension, were ordered to report for duty next Monday, which causes many people to think that the operators intend coming to a satisfactory settlement with President Mitchell next week.

BOSTON COAL FIRM  
LOSES ITS LICENSE.

Secretary of State Found That Unreasonable Prices Were Charged for Coal Since Present Difficulties Started.

Boston, April 7.—Secretary of State William M. Olin has suspended the license of the Metropolitan Coal company of this city, which has been charged with fixing extortionate prices on coal since the coal strike movement was inaugurated. Secretary Olin does not, however, find that the prices are extortionate, and he does not revoke the license on that complaint. He concludes, however, that there is a fair question as to whether the price of coal as recently fixed by the company is not exorbitant and excessive, and he suspends the license under the statute which permits him to take such action for "just and sufficient reason."

Secretary Olin believes that the entire question is one for the judiciary and his finding is in the nature of a probable cause, so that the question may be considered by a justice of the superior court, to which the coal company now has the right to appeal.

Secretary Olin reports that he found no evidence of conspiracy or of a general agreement among the dealers to raise the price, but he is inclined to the opinion that if the word "extortionate" in the statute means "unreasonable and exorbitant," the license should be suspended. The law does not say whether the price for coal sold pending the appeal or as to how soon an appeal must be taken.

Secretary Olin said that he has always been opposed to the statute on which his decision was based, on the ground that it is indefinite, and because it submits the question of state questions which would be better passed upon by the judiciary.

When the announcement of the coal strike was made the price of coal in Boston was generally advanced \$1 a ton. The Metropolitan Coal company, the largest company doing business in Greater Boston, was among the first to increase the rate. At a hearing before the secretary yesterday the company contended that it had increased the prices to protect people, as it had only about two weeks' supply of coal at its wharves.

## RESULT IN DOUBT.

There Is Nothing to Indicate Result of Monday.

New York, April 7.—Nothing has developed in the anthracite situation to clearly indicate what the outcome of next Monday's meeting between the sub-committees of the mine owners and the union leaders will be. There was no formal meeting of the operators, but most of them were in communication with one another.

It was reported that the arbitration offer of the miners would be flatly refused, but it was denied by those in authority that a final decision had been arrived at. It was also reported that the operators may accept arbitration, but with a different sort of a tribunal.

President Mitchell concerned himself almost exclusively with business connected with the coal situation and had no information to impart regarding the hard coal miners. He said his side has nothing to do now but wait for the operators' answer. It has practically been settled that if the operators refuse the arbitration offer a call will go out at once for a convention.

## MADE QUITE A STR.

The Proposition of the Soft Coal Operators.

New York, April 7.—Interest in the labor troubles in the anthracite regions was overshadowed yesterday by the proposition that came out of the west for the arbitration of the differences existing between the soft coal operators who have not yet agreed to the 1905 scale and their miners.

The offer of the soft coal operators is identical, word for word, except that the term bituminous is substituted for anthracite, with the one President Mitchell presented to the hard coal operators here. The receipt of the proposition caused quite a stir, and there was considerable speculation as to how the miners' leader would receive his own arbitration plan for another field. He was much interested in the news, but maintained his usual silence when asked what he would do.

Within an hour of the receipt of the offer from J. M. Winder, the head of the Ohio soft coal operators, he went a reply to the effect that he had no power to act on the proposition, but would submit it to the international executive board of the union at its meeting in

Indianapolis week after next. Mr. Mitchell was asked what he thought of Mr. Winder's literary ability, and he jokingly replied that he "admired it very much."

## JUMPED AND WAS KILLED.

H. H. Hallock Lost Life in Portland, Oregon, Fire.

Portland, Ore., April 7.—Fire yesterday destroyed the top floor of the eight-story Chamber of Commerce building and caused the death of Homer H. Hallock, agent of the Willamette Traction company, who jumped from the Commercial club rooms to the roof of the central core of the building several stories below.

The property loss is \$100,000. The fire started in the parlor of the Commercial club, supposedly from a lighted match thrown into some tapestries. The fire spread rapidly, causing a panic among the 1,500 persons in the building. A rush was made for elevators, stairways and fire escapes. The upper works of the elevators were soon burned and panic stricken people congested the stairs and the fire escapes but all escaped except Hallock, who jumped.

OXFORD MEN  
COLLAPSED

## After Being Beaten In Annual Race By Cambridge

## LATTER FINISHED STRONG

3½ Boat Lengths Between the Shells at the Finish, the Cambridge Men Having Jumped to Lead Almost at Start.

London, April 7.—Cambridge won her twenty-eighth victory in the annual boat race with Oxford today by defeating the crew of the latter university by 3½ lengths. It was an easy victory for Cambridge, and her men finished in excellent shape. The Oxford men, on the contrary, were greatly distressed by a hard pull and four of them collapsed after the finish. This was a surprise to the prophets on "form," as it was generally believed that Oxford had been getting staying powers, while Cambridge was regarded as the better crew in a sprint.

The race was rowed at noon, under favorable conditions and in the presence of a crowd that broke all records. The weather was ideal for racing and there was scarcely a ripple on the river.

Oxford took the Surrey side of the river. Both crews got a good start. Oxford pulled a slightly faster stroke, but Cambridge took the lead immediately. At Beverly Brook, Cambridge led by half a length and this was soon increased to two and a half lengths.

After passing Hammersmith bridge, Cambridge increased her lead to four lengths and moved across into Oxford's water, the Oxford boat receiving the resulting wash from the first shell. From Barnes bridge to the end of the course Cambridge rowed easily, finishing 3½ lengths in front of her antagonist.

## ROBBERS GOT \$60.

Daring Break in House of August Johnson of Proctor.

Proctor, April 7.—A robbery equally daring as that of the postoffice here some time ago was perpetrated some time during the night of Thursday. An entrance was forced into the house of August Johnson on Patch hill and \$60 in money taken, a new \$38 overcoat, several shirts and other articles of minor value. The robbery was not discovered until noon Friday. From appearances it seems that the burglars tried to burn the house, as there are several evidences of attempts to start a fire.

Whoever did it must have had some knowledge of the money being in the house as the money was being saved for a life insurance policy which was almost due.

As soon as the robbery was known Deputy Sheriff Startup was notified. He is working on the case but up to the present nothing more is known.

Left Wing of Catholic Girls' School in East Providence, R. I., Completely Guttered by Fire—Loss Is \$10,000.

Riverside, R. I., April 7.—The left wing of St. Mary's seminary, better known as Bay View seminary, in East Providence, one of the leading Catholic educational institutions for girls in New England, was completely gutted by fire of unknown origin late yesterday, causing a loss of about \$10,000, covered by insurance. None of the teachers or pupils in the building was injured.

The blaze originated in the kitchen of the school and was confined to that portion of the structure until the inmates of the institution had gotten out in safety. The building is about two miles from the nearest fire fighting apparatus, and the fire had gained good headway when the local firemen, assisted by a company from Pawtucket, arrived upon the scene. By dint of hard work the blaze was soon under control, and the main portion and right wing saved from the flames, although extensively damaged by water. The school accommodates about sixty girls, ranging up to about 15 years of age.

After setting the house on fire they continued their walk to Proctor.

Constable Casey had been notified and arrested the youngsters in Senator Proctor's yard. They were brought before E. P. Butler, justice of the peace, and when asked for an explanation of their conduct coolly replied, "We wanted to see the smoke go up."

## SENTENCE IMPOSED TO-DAY

The Rev. R. F. Lowe and Dr. L. D. Martin, trustees of Montpelier seminary, were in Montpelier yesterday afternoon to attend the trustees' meeting of the institution. There were nine members of the board present with Z. M. Manning of Newport presiding. The reports were most encouraging and the outlook of the school is very good. During the present year the income from the boarding hall has been the best in six years and there has been an increase in the number of students. Principal E. A. Bishop was re-engaged for the coming school year.

The work of raising the endowment fund is progressing favorably, although there is still quite an amount to be secured in order to get the \$50,000 promised by Dr. Pearson of Chicago, after having been made on condition that \$100,000 additional be raised and that the floating debt of the school paid. Including the Pearson contribution, there is now a total pledge of \$80,000. Although the amount yet to be raised is large, the trustees expressed no doubt but what they would be successful.
